

Senior Living Move-in Checklist

When you begin the process of moving to one of our communities our team members will provide you with a detailed checklist to make the process as simple as possible.

Below is an example of what you can expect.

Prior to lease signing

- Gather ID's, insurance cards, power of attorney documents, DNRs or any other advance directives. These must be given to community staff on lease-signing day or prior.
- If joining an assisted living community, schedule an assessment with the leadership team to determine a care level.
- Contact the United States Postal Service with your new forwarding address or change it online at www.usps.com/ChangeAddress.

Day of lease signing

- Complete, review and sign the Sonida Senior Living lease agreement.
- Bring IDs, insurance cards, power of attorney documents, DNRs or any other advance directives and give them to the community staff.
- Bring license plate information to register for a parking space in the garage, if applicable.
- Bring a check to pay the first month's rent (amount discussed prior).

Prior to move-in

- Check with us on which utility services (gas, electric, water & sewer) are included in your rent.
- Bring a padlock to secure your storage unit, if applicable.
- If interested in newspaper service, let us know, and we can help you set up a subscription.
- Register to vote at your new address. We can help you get set up.
- Review all information in the Welcome Packet. It has information regarding community amenities, fire escape routes, resident contact information, cable channel listings and more.
- Secure renter's insurance. We will provide you with a list of property features that insurance companies will ask about.

Tips for movers

- Do not leave community doors ajar as doing so could affect the temperature in the building.
- Do not leave boxes in hallways while moving.
- Do not block in other cars. This may mean you need to walk a little further for moving items.
